**The Conference in brief:** The primary purpose of the conference is to address pertinent theories and provide practical experiences concerning physical education specialists, coordinators and administrators; preschool and day care center personnel; special education teachers; recreation directors and therapists; and professional preparation personnel in physical education, recreation, early childhood education, middle grades education or special education programs. **Elementary, Middle School and High School Teachers are urged to share their ideas about the teaching of physical education.**

Individuals are encouraged to present research or position papers, activity ideas, or any other relevant program. To add to the quality of programs presented at previous STW conferences, we are looking for additional innovative ideas related to early, middle and high school physical education, adapted physical education, Special Olympics, and physical education in rural settings. Proposals will be accepted until November 20, 2009. Proposals should include a ONE PAGE TYPED ABSTRACT along with the following information sent to **BOTH** co-directors, preferably by e-mail:
